# Chapter 1 - Observable patterns

This repository ships neutral placeholder content to test the publishing pipeline in a reproducible way. The original book content has been removed from these files.

## Purpose

This section demonstrates a meaningful outline with sub-levels.

## Structure

### Section A

Neutral sample text.

### Section B

Neutral sample text.

## Pipeline Features

- YAML frontmatter (document metadata)
- Heading hierarchy (TOC / PDF bookmarks)
- Lists, code blocks, blockquotes
- Tables and references
- Stable navigation (SUMMARY.md)

## Example table

Item	Purpose
Heading	TOC/bookmarks
Table	list of tables

## Example code block

```
python -m gitbook_worker.tools.workflow_orchestrator --help
```

## Chapter 2 - Comparative tables

This repository ships neutral placeholder content to test the publishing pipeline in a reproducible way. The original book content has been removed from these files.

### Purpose

This section demonstrates a meaningful outline with sub-levels.

### Structure

#### Section A

Neutral sample text.

#### Section B

Neutral sample text.

### Pipeline Features

- YAML frontmatter (document metadata)
